Obtaining Consent

Give Patients a Special Valentine!

Hearts are red, veins are blue; with a patient's consent, you can get a full view. So, show patients a little love. Here's how.

Enhancements

NEW! View Multiple Images on PACS at Once

Now it will be easy for clinical Web Portal users to view multiple image studies at the same time. HealthlinkNY's ePACS feature launches Wednesday, February 15th. You'll be able to compare studies over time and from different imaging centers. [More](#)

Incentives

Here's a Good Reason to Contribute Data: \$\$\$
